

SAP SD Business Consultant

Nobel Biocare (www.nobelbiocare.com), an OpCo of Envista (www.envistaco.com), is a world leader in innovative restorative and esthetic dental solutions, providing dental professionals with state of the art evidence-based root-to-tooth solutions, including dental implants, all-ceramic crowns, bridges and laminates, guided surgery planning, scanners and biomaterials. We want to shape the innovation and the industry.

The center of excellence of Software Development for Envista, Medicim, is world leader in innovative software solutions for the dental profession. We investigate, develop, maintain and support innovative software solutions for clinicians and dental technicians. Our software solutions create intuitive workflows for image acquisition, diagnostics, treatment planning, prosthetic CAD/CAM and dental team collaboration in order to treat patients better. DTX Studio is our flagship software suite. We want to shape the innovation and the industry.

We are seeking for an SAP SD Business Consultant to join our team to enable the process execution.

Job Description:

- You enable Sales and Distribution processes within our company.
- You manage projects within budget, timeline and expectation.
- You collaborate closely with the business and other Global IT functions.
- You handle change requests from the business according to the management process.
- You will maintain the process and application for infrastructural changes and upgrades.
- You proactively drive process standardization and reduction of complexity within the application landscape and the business processes.

Your profile:

- You have a strong technical IT knowledge of supported Business Applications.
- You have worked in a multicultural work environment before.
- You have a strong SAP SD knowledge in the areas of Intercompany, Consignments, EU Triangular Sales, Pricing etc.

- You have experience in integration using SAP EDI, ALE-Idocs between multiple SAP and external Non-SAP systems.
- Experience as a team lead or technical lead for complex web applications is required.
- You work with SAP Hana, and are keen on supporting the transition towards S/4 Hana.
- You have experience in Sales and Distribution processes.
- You have excellent communication skills in English, both written and oral.

Our offer:

- Our work environment is informal, collaborative and supportive of individual growth in talent and leadership.
- An internationally oriented working atmosphere.
- Focus on continuous learning: internal, external and on-line seminars, attending international conferences.
- A clear onboarding process.
- A challenging leading edge and inspiring working environment which makes a contribution to human health and human convenience.
